MONEY, STOCKS AND GRAIN

The Share List at New York Showed Irregularities, but in the Main Higher.

Unward Movement in Prices, However, Brought Little Increase of Business-At Indianapolis Grain Is Still Discouraging.

THE BOND MARKET.

Railway Issues Were Firm Generally with Sales at \$1,430,000.

At New York, yesterday, money on call was easy, ranging from 2 to 5 per cent. the last loan being made at 2, closing offered at 3.

Prime mercantile paper 5@6 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.84% for sixty days and \$4.87 for demand.

The total sales of stocks were 280,000 shares, including the following: Atchison. 28,400; Burlington & Quincy, 5,300; Chicago Gas. 10,000; Distrillers', 32,400; Erie, 6,800; Louisville & Nashville, 3,400; Missouri Pacific. 5,900; New England, 3,500; Northern Pacific preferred, 19,800; Northwestern, 3,000; Ontario & Western, 5,200; Reading. 52,800; St. Paul, 18,800; St. Paul & Omaha, 4,000; Sugar, 10,500.

The stock market, although irregular in the early trading, was in the main higher. The advance in the leading railway shares was equal to 18 @ 38 per cent. but some of the specialties scored a much greater im-provement. The upward movement in prices brought very little increase of busi-ness, and the lack of enthusiasm on the bull side finally induced the bears to make a vigorous demonstration against the list.
Omaha common fell off 1½ per cent. to
49¼. The remainder of the list yielded
only ½ to 1 per cent. The market closed

Railway bonds generally firm; sales, \$1, Government bonds quiet; State bonds

duli. Closing quotations were:

LOCAL GRAIN AND PRODUCE. Trade a Little Off with but Few Fluctua-

tions in Values Yesterday.

The heavy rain of yesterday interfered with trade somewhat, although mail orders were large and very satisfactory. Prices still have an advancing tendency. This is the most marked in dry goods, groceries, fruits and vegetables. The Boston Herald explains the sudden advance in dry goods

Leading commission agents say that they have no goods in stock, and that circumstances demand better prices. The price of cotton has increased from 7c to 9½c. in itself a very great advance in the raw material. Labor has been advanced 7 per cent. at Fall River. Providence has followed suit. New Bedford has advanced the wages of its cotton operatives, and yesterday there came to the agents here the news that the spinners at Lowell had asked an advance in wages. Men of opinions highly worthy of respect in cotton goods matters think that this advance will have to be granted and that it will not only have to be granted in Lowell, but in all the cottonmills of the country. The market on printing cloths is firmer. The rather sudden advance in cotton is doubtless one cause of this advance, but the fact of no stocks, with the market sold so far up into the coming year, cannot be lost sight of in searching after the cause of the very strong position of printing cloths. The market is very strong and there are no immediate prospects of a decline. On the contrary, the chances are very favorable for printing cloths to go above 4 cents.

Sugars and coffees are both in strong po-sition, and it is becoming a question of where the Irish potatoes are to come from to supply the Indiana markets, as the crop all over the State was light. Ninety per cent. of the apples offered come from New York and New England. Eggs continue in

PORK DETERMINED TO RISE

Considerable Excitement in Chicago Provision Pits with the Advance.

Pardridge Hammered the Pottom Out of Wheat for a Time, but the Market Turned Again-The Price Current's Crop Report.

TRADING AT CHICAGO.

Corn and Oats Followed Wheat for a Time,

Then Dropped Off. CHICAGO, Nov. 17 .- Hog products soared maj t ally skyward to-day. To-night, compared with last evening, pork is up 324c, lard 20c and short-ribs 15c. Considerable excitement attended the trading in provisions. The receipts of hogs at the yards were under the estimates at 24,000; and the shorts made vigorous efforts to cover. At the improvement in prices there was a little more property for sale, and prices settled back slightly, though the market exhibited considerable firmness at

the close. Wheat opened higher, but Pardridge hammered the market, wiping out all the gain. When the Cincinnati Price Current's crop summary came, saying that the interior deliveries were falling off at a rate which indicated that the visible supply was rapidly nearing the maximum, the market again turned strong. The liberal exports from the sea-board, amounting to 462,000 bu of wheat, and 65,000 bbls of flour, also proved a strong factor. The market became quiet during the last hour, and eased off somewhat in the last ten minutes. Prices most of the day were 120 over the closing figures of yestarday. The closing was the same as yesterday for Decem-

ber, and ac higher for May. Corn started higher, influenced by wheat and the wet weather, which was liable to cut off deliveries, but the receipts were in excess of the estimates and, wheat weakening, there was free selling, carrying prices off. Later another bulge in wheat and a sport in provisions sent corn up again, but again weakened. The market opened 'se up and kept within a 4c range, closing easy with '4c loss from last night. Oats were fairly active in a range of 4c and closed easy 40%c below yesterday's

Estimated receipts for to-morrow are: Wheat, 190 cars; corn, 220 cars; oats, 150 cars; hogs, 21,000 head. Freights were weaker, with more boats on the market for loads. Rates declined 4c to 24c for wheat

When Women Voted for President. It has been widely and erroneously stated that the women of Wyoming were the first to vote for a President of the United States. The Woman's Journal corrects this mis-understanding, and recalls the fact that the New Jersey convention that framed the Constitution under which that State joined the Union allowed women as well as men to vote if they were "worth forty pounds." Under that Constitution New Jersey women voted for George Washington for President. New Jersey women continued to vote for President until after Adams the first was elected. Then they were disfranchised.

## INDIANAPOLIS JOURNAL

- THE -

Daily, Sunday and Weekly.

Since the Journal reduced its price from 25 to 15 cents a week it has greatly extended its circulation. reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate the result which was to be expected, namely, that what was first regarded as a luxury has become a necessity, and that the new readers not only remain, but their list is constantly increasing. It is the purpose of the Journal

to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly-developing industries and business and social enterprises of the community call for additional consideration and space. With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "writeup" of every important event or

matter of general interest. Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of even greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in transportation.

The Journal is the paper for Indianians and particularly for Indiana Republicans. Although the campaign is ended, the coming session of Congress and subsequent change of administration involve political problems and proceedings likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana in-

But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constant endeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a wellestablished literary character superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
